

Chair Elect Report –

I am rapidly becoming familiar with the philosophy and operations of TECH and CTA. During the winter months I have been working with the executive team on current and future aspects of the TECH division. In addition, I am looking forward to attending the ACS Leadership Institute in Fort Worth, TX the weekend of January 23rd. I will be attending this meeting along with the current TECH chair, Debbie Bailey. This conference should lend even further insight into the upcoming events associated with leadership in the TECH division of the ACS. I am also preparing to work with Debbie Bailey and Mary Moore on the upcoming elections for the division; accepting nominations for new officers this Spring.
