Responsible Care[®] First Look

Responsible Care is a voluntary commitment to the continuous improvement of environment, health, safety, and security in the chemical industry.

In the US, Responsible Care is a mandatory requirement for membership at the American Chemistry Council (ACC).

The Responsible Care Global Charter is the umbrella for the industry's global voluntary initiative under which companies, through their national associations, work together to continuously improve their health, safety and environmental performance and to communicate with stakeholders about their products and processes.

Responsible Care's Business Value

Responsible Care's value chain requirements decreases liability risk associated with partners.

Responsible Care provides a platform for systematic, global risk evaluation and management, accountability, communication and compliance assurance

Responsible Care's networking activities and commitment to transparency in performance data, positions companies to capitalize on business opportunities.

SC3 Making a Difference

- Management of Chemicals (lifecycle)
- Safe Use of Chemicals
- Education and Outreach

ACC and SC3

- Partnership Agreement
- Westfield High School
- Arlington Public Schools
- Company Outreach
- NewsLink
- Periodicals Placement

Future Plans

- Education and Outreach
- Grants/Gifts
- Webinars
- NewsLink
- Case Studies
- Web videos
